warranty

NOTE: Dimensions in parentheses () are millimeters.
Information is subject to change without notice or obligation.

The SSA-645 extruded aluminum sunshade is designed to provide distinctive style to a building's exterior while keeping the building cool and saving energy by reducing glare and thermal load. It is ideal for sustainable or 'green' building construction. The SSA-645 is available in a wide array of anodized and painted finishes including custom color matching.

Standard Construction

Material: Mill finish 6063-T5 extruded aluminum

Outrigger: 6" high × 0.250" thick (152 × 6.4) plate with rounded front

Blades: 45° × 0.110" (2.8) thick airfoil style

Fascia: 4" diameter × 0.081" thick (102 × 2.1) round tube

Minimum Size: 12" wide (305)

Maximum Size: Single section: Consult Factory
Multiple section: Unlimited

Projection: 24" (610), 36" (914), 42" (1067), 48" (1219), and 60" (1524)
